

STATEMENT OF PURPOSE

RS29222 / H0496

Child Protection Services (CPS) employees of the Idaho Department of Health and welfare are already required to be trained in the legal and constitutional rights of those they are investigating. This legislation adds a subsection that identifies which rights, in particular, the legislature would like the CPS employees to be trained in.

FISCAL NOTE

This legislation will have no fiscal impact on the general fund, or any other State fund or local government funds. The CPS employees are already being trained, and this bill just clarifies some of the training that should be included. This legislation will have no fiscal impact because the language just changes policy for how to use the code and does not require resources to implement.
